

Dear **Users**,

We are pleased that you have chosen to pilot the CAS SciFinder Discovery Platform™, the most comprehensive scientific search engine available to the academic research community.

How do new users register for the CAS SciFinder Discovery Platform?

New users will register for the CAS SciFinder Discovery Platform using the following registration URL:

<https://scifinder.cas.org/registration/index.html?corpKey=4EA144CAX86F3503FX3360B8BD1349A6ACFC>

After you register, CAS will provide you with administrative access to the CAS Customer Portal (<https://customer.cas.org>).

*****Due to IP address authentication, we recommend that you provide a separate link to both the registration page and the login page via a proxy on your university's library databases page. *****

Helpful links to share and add to your university portal where the Pilot is advertised:

- [Bookmark the CAS SciFinder FAQ page](#) and post to your institution's registration page
- [Access](#) the CAS SciFinder quick start guide for a step-by-step journey into the product
- [Watch](#) our collection of video tutorials for CAS SciFinder and bookmark the page
-

When will students and staff have access?

From **October 15, 2024 thru December 15, 2024**, users will be able to log in to CAS SciFinder Discovery Platform resources below.

CAS SciFinder® and ChemZent®

Our next-generation scientific research solution provides access to the most comprehensive collection of chemical reactions, substances, and scientific literature curated by expert scientists.

- Log in at <https://scifinder.cas.org>
- Additional information about [CAS SciFinder](#) and [ChemZent](#)
- [Training](#)

CAS Formulus®

Our comprehensive formulation database supports your formulators in developing more profitable products with maximum cost-effectiveness.

- [Learn more about CAS Formulus](#)
- Log in at <formulus.cas.org>
- [How to use CAS Formulus](#)

CAS Analytical Methods™

We make it simple to locate, compare, and understand analytical methods from top journals and patents, so your researchers can get back in the lab faster.

- Log in at <https://methods.cas.org>

- [Additional information](#)
- [Training](#)

If you have any questions, please contact the [CAS Customer Center](#).
